ELO Digital Office is entering a strategic partnership with Tandberg Data:

## **Tandberg Data is ELO's new technology partner**

**Stuttgart, 4 October 2011 - In September 2011 ELO Digital Office entered into a strategic partnership with Tandberg Data. This expands the network of top-class technology partners enjoyed by the Stuttgart-based producer of software for both document management (DMS) and content management (CMS). The goal is an even more intensive cooperation with the provider of data-security solutions. ELO already certified Tandberg's backup products RDX and RDX WORM back in July. The first events together are planned for the fall.**

When IT service providers and manufacturers work closely together and compliment each other's product spectrum, the customers are the ones who usually profit. For Tandberg this was also the primary reason to get itself certified. Andreas Hellriegel, Tandberg Sales Director for Central and Eastern Europe, explains further: "With ELO's certification we are making sure that our Data RDX WORM solution works smoothly and error free with the DMS software from ELO, which together results in a sensible interplay. Customers can easily implement the DMS workflow within their companies and rest assured that the software and hardware components will do their jobs."

In the fall Tandberg Data will be joining the *ELOoffice* Roadshow through six German cities. In return, ELO will be participating in the Tandberg TechNight on October 20 in Meerbusch, Germany. You can find out everything about the *ELOoffice* Roadshow at <http://www.eloweb.eu/wcm/de/events/elo-veranstaltungen/eloffice-roadshow>.

# PRESS RELEASE

## **ELO Digital Office GmbH**

ELO Digital Office GmbH develops and sells high-performance software solutions in the areas of electronic document management, digital archiving and workflow management and covers the entire spectrum of Enterprise Content Management (ECM). The **ELO**<sup>®</sup> product family consists of three software packages: **ELOoffice** is the entry-level DMS solution for small businesses. The modular client/server framework of **ELOprofessional** is aimed at mid-sized companies. The high-end solution **ELOenterprise** is platform independent, highly scalable, as well as multi-tenant capable and is especially powerful when utilized by data centers and for portals. Each of these are all fully compatible with one another and allow file exchange between each other as well as seamless upgrades to different levels at any time.

ELO Digital Office GmbH originated as a spin off from Louis Leitz and became an independent company in 1998 with headquarters in Stuttgart, Germany. ELO now has an international orientation with subsidiaries in Europe, Asia, and Australia. With its dense network of system partners, over 450,000 installations are currently being supported worldwide. In addition, ELO maintains numerous technological partnerships with software and hardware manufacturers like Fujitsu, Hewlett-Packard, Kodak, Kyocera, Microsoft, and Sun Microsystems.

ELO products are utilized by a wide variety of companies, both in size as well as market segment. Examples include Airbus, Alstom, EADS, EnBW, HSG Zander, Lufthansa Technik Logistik, MAN, Suedzucker, and several different state and federal authorities.
